THE WESTIN

Step into the scene of new Milan.

Enriched by its surroundings, the hotel sits within the Porta Nuova District, new heart of Milan. A thriving metropolis for business and leisure, it combines high-end shopping, cultural attractions and open green spaces, and is also conveniently located within easy reach of Milan Central station and both international and domestic airports. The nearby Giardini Pubblici Indro Montanelli park provides further opportunities for keeping fit and spending quality time with the family enjoying the wide green outdoors.

NEW BLOOM.
NEW LOOK.

We recently revealed a new design after a renovation that combines the beauty of our classical architecture with contemporary lines. The lobby, The Lounge Bar and the meeting spaces have been redesigned taking inspiration from our two souls - a refined Mid- Century charm and the grandeur of classic Imperial elegance – with a modern touch. Sophisticated details and a fresh elegant color palette introduce guests to a lively atmosphere of timeless luxury and a new concept of hospitality. A Biophilic Westin is in full bloom, reconciling guests with nature and greenery. Be ready for a new immersive experience from your first step in.
